3) No modified version of the source software can use the reserved source name (s) unless the explanatory permission in writing is granted by the corresponding copyright support. Ending This license becomes null and empty if any of the above conditions are not met. À ç à € "Author à €" Types, contours, tones and ornaments, making the perfect toolkit to take your display typography in a new direction. À ç à € ~ ~ It refers to the collection of source software components, as distributed by the copyright holder (s). comttp www. This licensing is available with a FAQ in HTTP scripts. A font is the font combination, size, weight, inclination and style to compensate for a printed or displayed character set. OFL allows the licensed sources to be used, studied, modified and redistributed freely, provided that they are not sold by themselves. Disclaimer The source software is provided "as" as ", without guarantee of any type, expressed or implicit, including, but not limited to any warranties of commercial, fitness for a specific purpose and Not copyright financing, patents, registered or other right marks. 5. Think of the font as a whole typography family, and a source such as size, specific weight and style of a font. From high drink shops to majestic theaters, vertical signales fills our cities. Following your leadership, I designed Bungee to be able to adapt to the horizontal or vertical text, so it is always ready to take your text into a new direction. It is important to be intentional when choosing fonts, because they can affect readability, influence the tone and reflect the professionalism, all that will influence the ideas are communicated. 5) Source software, modified or non-modified, in part or all, should be distributed entirely under this license and should not be to be Under any other license. Sources and derivatives, however, can not be released under any other type of license. These can be included as independent text files, human-legible headers or the appropriate machine-legible metadata fields within the text or binary files, provided that these fields can be easily viewed by the user. Bungee is a fountain familia by David Jonathan Ross who celebrates the urban signal - this involves the Latin alphabet to work vertically as well as horizontally, with separately glyphs, spread and kerning for each orientation. 5900 PostScript Source Name: Bungeelayers-RefriqletReademark Warning: Bungee is a registered brand of Bureau de Font. The requirement for fonts remain under this license does not apply to any document created using fonts or derivatives. FontSquirrel notes on the heritage of this source: The licensing of this source seems to allow you to use @ font-face CSS incorporating! DJR. Instead of sculpting font blocks, tipographers now design fonts digitally. Manufacturer Name: David Jonathan Rossdesigner: David Jonathan Rosshhttp www. Font vs. Please look at the files readme in the files or check the author's site indicated for details and contact him if in doubt. À ç à € "Name of the desired source refers to any names specified as such, after the copyright statements (s). Used digital font -
